ACADEMIC PROCESSIONAL & CEREMONIAL CUSTOMS

The ceremonial customs of commencement, rooted in centuries-old tradition, are described below.

Processional

The academic processional is an official prelude to the commencement ceremony. University marshals lead the procession, followed by the assembled degree candidates, marching in order of degree earned. Following the candidates are the members of each represented college's faculty. Next come the platform party, including Trustees, administrative officers, and recipient(s) of honorary degrees. Finally, the University Marshal, bearing the University Mace, which represents the authority of both the University and the state, is immediately followed by the president of the University.

Academic Attire

The academic regalia worn at commencement are of medieval origin. The scholars of Bologna, Paris, Oxford, Cambridge and Heidelberg dressed in a manner to distinguish themselves from the merchants and other townspeople. When the universities first arose in the 11th century, "learned clerks" robed themselves in gowns, caps and hoods, thus signifying the distinction between "town" and "gown." As additional universities came into being, professors adopted distinctive forms of the gown and hood for bachelor's, master's and doctoral degrees.

These customs are reflected in today's commencement attire. In Europe, a professor generally wears the type of garment customary in the university where he or she is lecturing. In the United States, professors wear the gown and hood of the university where they earned their highest degree. All commencement ceremony participants at The University of Akron are attired in the appropriate academic apparel. University marshals are distinguished by their blue and gold robes and Elizabethan caps.

Caps and Tassels

The cap, also called the mortarboard, may have been derived from the squarish cap worn by the masons of the Middle Ages, or perhaps was suggested by the shape of the books which occupied so much of the scholar's time. In the United States, the cap is usually flat and square in shape. In Europe, one sometimes sees caps of other varieties. Attached to a button atop the mortarboard is a tassel.

Gowns

Originally, the gown may simply have been a type of overcoat to protect the teacher from the cold in unheated buildings. The cut or style appears to derive from ecclesiastical attire and most often is black. The associates and bachelor's gowns generally have a closed front and open sleeves. The master's gown more often has long, closed sleeves, from which the arms extend through a slit at the wrist. The doctor's gown is faced down the front with velvet panels and has bell-shaped sleeves adorned with three velvet bars.

Hoods

A triangular fold of cloth worn over the back of the gown, the hood is faced with colors which denote the field of study represented by the wearer's degree. The colors of the lining indicate the college or academic discipline in which the degree is granted.

Colors

The various colleges and academic disciplines of The University of Akron are represented by the following hood and tassel colors:

Apricot	Nursing
Drab	Business
Gold	Doctoral
Light Blue	Education and Counseling
Orange	Engineering and Polymer Science
Peacock	Disaster Science and Emergency Services
Pink	Music
Purple	Law
Silver	Arts and Sciences Associate's
Teal	Health and Human Sciences
White	Arts and Sciences Bachelor's
Yellow	Social Work and Child and Family Development

The University Seal

A seal is an emblem, symbol or word that certifies or authenticates a document. The use of official seals dates back to the Norman Conquest in 1066. During the next century, seals were used throughout England to authenticate documents. Persons of rank had unique seals befitting their status. Most seals were circular or oval-shaped with heraldic designs embossed on their faces.

The use of seals became part of academic tradition in the medieval university and continues to the present. The University of Akron, for example, displays its seal on diplomas presented to its graduates.

The coat of arms shown on the University's seal includes an open book and quill, representative of the University's original liberal arts curriculum. A lamp of learning shown against a city skyline depicts the University's metropolitan setting. Three diagonal bars represent the private, municipal and state stages of the University's history. The phoenix, a mythical bird that is consumed by fire and rises from its ashes to achieve greater glory, is a tribute to the University's rebirth following the devastating fire of 1899. The seal also displays the original Buchtel College motto, *Fiat Lux* (let there be light).

University Seal

The Ceremonial Mace

The Ceremonial Mace was presented to The University of Akron by the Alumni Association on Founders Day 1970, in recognition of the University's founding 100 years earlier as Buchtel College.

Since ancient times, maces have been symbols of authority for many academic and governmental bodies. The University of Akron's Ceremonial Mace is carried by the University marshal at all formal academic occasions.

The most distinguishing feature of the Ceremonial Mace is the aforementioned rising phoenix, an apt symbol for the University, which was rebuilt, through the generous support of alumni and the community, from the ashes of Buchtel College after it burned down in 1899.

GRADUATION WITH HONORS

Graduation With Distinction

To graduate with distinction, students must have maintained specified levels of academic achievement directly related to quality points earned for all undergraduate courses taken. The maximum quality point ratio possible is 4.00.

To qualify for these honors distinctions, students must be receiving a baccalaureate degree, having earned a minimum of 60 credits at The University of Akron; or an associate degree or baccalaureate degree, having completed a minimum of 30 credits at The University of Akron.

The honors levels for each group are described as follows.

Baccalaureate Honors Designation

60 or more credits earned

Summa Cum Laude—
quality point ratio of 3.80 to 4.00

Magna Cum Laude—
quality point ratio of 3.60 to 3.79

Cum Laude—
quality point ratio of 3.40 to 3.59

Associate or Baccalaureate Honors Designation

30 or more credits earned

With Highest Distinction—
quality point ratio of 3.80 to 4.00

With High Distinction—
quality point ratio of 3.60 to 3.79

With Distinction—
quality point ratio of 3.40 to 3.59

Williams Honors Scholars

Williams Honors Scholars have completed the graduation requirements of their baccalaureate majors and of the Williams Honors College with cumulative quality point ratios of at least 3.40. The Williams Honors College encourages and assists exceptionally talented students to achieve high distinction in academic work from freshman through senior levels and fosters respect and appreciation for superior intellectual achievement. Williams Honors Scholars have completed honors courses, an honors colloquium sequence and individually designed senior honors projects.

M.S., B.S., National Chiao Tung University

Dissertation: “Energy Storage: From Organic Aqueous Redox-Flow Battery to Solid-State Lithium Metal Battery”

Adviser: Dr. Yu Zhu

Che-Kuan Lin

Polymer Engineering

M.S., National Taiwan University;
B.S., National Cheng Kung University

Dissertation: “Inhibition of Free Radical Cured Thermosetting Acrylic Coatings”

Adviser: Dr. Mark Soucek

Dipak Pukale

Engineering – Chemical

M.S., B.S., Institute of Chemical Technology, Mumbai, India

Dissertation: “The Role of Betaine-Focused Fluid Osmoregulation in Syringomyelia Post Spinal Cord Injury”

Adviser: Dr. Nic D. Leipzig

Tanvir Quasem

Engineering – Civil

M.S., The University of Akron;
B.S., Bangladesh University of
Engineering and Technologies

Dissertation: “Characterization of Asphalt Mixture Cracking Resistance Based on Mix Design Parameters”

Adviser: Dr. Ala Abbas

Md. Hasan Rahman

Engineering – Electrical

M.S., Bangladesh University of
Engineering and Technology;
B.S., Chittagong University of
Engineering and Technology

Dissertation: “Signal Design and Capacity Limits of Heterogeneous Networks with Ultra-Low Resolution Analog-to-Digital Converters Under Gaussian Mixture Interference”

Adviser: Dr. Nghi Tran

Anwar Sadek

Engineering – Chemical

B.S., LaRoche University

Dissertation: “Investigating the Electrochemical Interaction of Microorganisms with Metal Surfaces During Microbiologically Influenced Corrosion”

Adviser: Dr. Hongbo Cong

This program is not an official graduation list.

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusion of candidates names, or may result in the use of names of persons not completing graduation requirements. All honors indicated in this program are tentative. Official degree honors for diplomas and transcripts will be determined after final grades are reported. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the University Registrar, Simmons Hall, Akron, OH 44325-6208.

STATUE OF JOHN R. BUCHEL

This statue of John R. Buchtel stands in the middle of the campus he helped found in 1870.

THE ALMA MATER

Close be-side Cuya - ho-ga's wa-ters, Stream of am-ber hue,

O'er old Buch-tel Sum-mit's glo-ry Waves the gold and blue.

Chorus

Hail we Ak-ron! Sound her prais-es, Speed them on the gale,

Ev - er stand our Al-ma Ma-ter, Ak - ron hail, all hail!

The Alma Mater for The University of Akron was written by the Rev. Augustus B. Church, who was the last Universalist clergy to serve as president of Buchtel College (1901–1912). He was also the first person to assume the board responsibilities of chief executive officer. In fact, Church served both as president and as a trustee of the institution — as well as pastor of the First Universalist Church of Akron. Dr. Church understood the importance of higher education as a means to improve society, and he worked diligently on projects to successfully link the educational efforts of Buchtel College with the needs of a growing city. During his presidency, Buchtel College offered the world's first courses in rubber chemistry (1909).

THE AKRON BLUE AND GOLD

We cheer the Ak - ron Blue and Gold, We
 cheer as the co - lours un - fold We pledge a - new,
 we're all for you, as the team goes crash - ing
 through FIGHT! FIGHT! We cheer the Ak - ron war - riors bold,
 For a fight that's a sight to be - hold So we stand
 up, and cheer and shout for the Ak - ron Blue and Gold. *fine*
 Zzzip! _____ Zip go the Zip - pers
 Zzzzip! _____ Zip go the Zip - pers Ak - ron U,
 Gold and Blue All for you and the Zip - pers too! *D.C. al fine*

The University of Akron's fight song, "The Akron Blue and Gold," was written in 1939 by Fred Waring, nationally known composer and leader of the wildly popular band, "Fred Waring and the Pennsylvanians." In response to a request from the University's student newspaper, Waring wrote "a distinctive song" for The University of Akron. "The Akron Blue and Gold" premiered over his NBC hookup on November 17, 1939, and has been used as the University's fight song ever since.

THE UNIVERSITY OF AKRON: A PROUD TRADITION

The Ohio Universalist Convention established a small liberal arts college in Akron in 1870 and named it after one of the city's prominent industrialists, John R. Buchtel. It was Buchtel who led a group of 100 individuals and 13 businesses in a fundraising campaign to build the college. On July 4, 1871, thousands of citizens turned out to witness the results of that initiative, joining in a great celebration as the cornerstone was laid for a single but impressive structure that constituted Buchtel College.

Both a visionary and pragmatist, Buchtel believed that the vigor of any city is closely tied to the proximity of a high-quality institution of higher education. Decades of progress, both for the city and for the college he helped to launch, have proven him right.

Today, The University of Akron continues to invigorate the region, providing top-ranked and in-demand degree programs ranging from associate through doctoral degrees in the liberal arts, sciences, health care, engineering, business, law, education and more. Students gain real-world experience through internships, co-ops, study abroad and other career-focused learning opportunities.

Accredited by the Higher Learning Commission and classified at the highest level as a comprehensive, doctoral-degree-granting institution, the University serves students from all over the country and world through five degree-granting colleges and a School of Law on the main campus and through satellite campuses in Lakewood, Medina and Orrville. Today, more than 179,000 of its alumni live and work around the globe.

The University of Akron Celebrates 150 Years

When John R. Buchtel saw the cornerstone laid for Buchtel College, he pledged that the new school, built on a hilltop overlooking Akron, would bring honor and pride to the city and state. Over the next 150 years, The University of Akron kept and exceeded the promise of its founder, rising to become one of Ohio's most influential public urban research universities.

Among its many achievements, the University was the first in the world to offer courses in rubber chemistry. It pioneered one of the country's first engineering co-op programs, which remains a national model. In World War II, the U.S. government called upon the University to help develop synthetic rubber for the Allied forces. When the rubber industry declined, the University rose to new heights of innovation, leading the world in polymer science and polymer engineering.

Today, the University continues to rise, advancing research and knowledge in engineering, business, health care, the arts and sciences, education and law. It continues to uplift the region through hundreds of partnerships with business, industry, academia and government. It continues to produce leaders who, joining a proud community of more than 170,000 alumni, are making a difference throughout the world.

It continues to keep its founder's promise.
